

Fransgård RV Universal Haymakers

RV-300
RV-390

Fransgård RV Universal Haymakers efficiently combine the tasks of tedding (spreading) and windrowing (raking) a variety of crops under the most demanding conditions. The RV Haymaker is produced in two sizes offering the customer a simple to use and reliable machine built on many years of practical experience.

Fransgård

With the rear crop guards folded up, out of the way, the crop can be evenly spread for drying purposes.

The rear crop guards are lowered when raking to form an even, large and fluffy swath. Wheels under each rotor (standard specification RV-300 has 1 / RV-390 has 2) ensure excellent stability in the field and a safe and easy operation for the operator.

The tines are forced into a low working position through centrifugal action. The tines are easily set for either tedding or windrowing without the need for any tools. The robust rotor ensures a reliable and long service life.

The working height is easily adjusted by the pin-hole matrix and can be finely tuned by adjusting the top-link to the tractor to produce a clean crop for harvesting.

Hardened crown-wheel, pinions and drive-line between the rotors ensures the Fransgård RV Haymaker reliably performs under the most demanding conditions.

The RV Haymaker is easily moved from the field position into a narrow transport position for the road.

Technical data:	RV-300	RV-390
Working width <small>maximum up to</small>	3.0 m / 9'10"	3.9 m / 12'10"
Tine to tine width <small>raking</small>	2.75 m / 9'	3.6 m / 11'10"
<small>spreading</small>	2.9 m / 9'6"	3.75 m / 12'4"
Transport width	2.5 m / 8'32"	3.2 m / 10'6"
Working speed	10-15 km/hr/6-9 mph	10-15 km/hr/6-9 mph
Output	3-4 ha/hr/7.5-10 acres/hr	4-5 ha/hr/10-12.5 acres/hr
Power requirement	22 KW / 30hp	30 KW / 40hp
Number of tines	20 pcs double	28 pcs double
Tyre	2 pcs 15x6.00-6 4 ply (optional 4 pcs)	4 pcs 15x6.00-6 4 ply
Pto	400-540 rpm	400-540 rpm
Weight	357 kg / 787 lbs	489 kg / 1.078 lbs
