

DATA SHEET

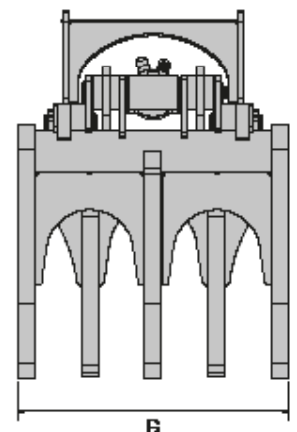

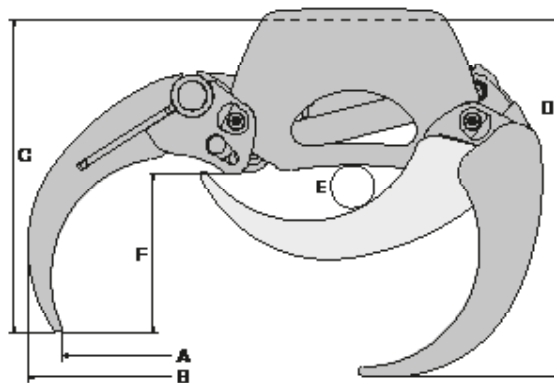

The Powerhand eX forestry grapple is the ultimate heavy duty forestry biomass grapple for installation on an excavator or large crane.

The Powerhand EX grapple design has been optimised for tasks such as feeding chippers, handling brush while clearing sites, log handling and general forestry work.

Designed for use on excavators from 8 tonnes to 30 tonnes, the eX Series is ideal for rigid excavator mounting both direct via a tilt rotator or rigid rotator assembly. Also available for swing link mounting. The EX25 grapple legs feature 5 solid 30mm Hardox tines and other models feature 5 solid 50mm tines, allowing Powerhand EX biomass grapples to excel in this demanding application.

Dimensions		EX25	EX28	EX36	EX40
Capacity (m ²)		0.25	0.28	0.36	0.40
Weight (kg)		323	496	652	875
Opening (mm)	A	1428	1412	1720	1937
Max. Opening (mm)	B	1641	1632	1928	2137
Open Height	C	873	887	939	1003
Tip to Tip Height (mm)	D	948	956	1067	1163
Min. Gripping Diameter	E	117	106	128	138
Clearance (mm)	F	466	428	472	492
Width at Tips (mm)	G	560	700	800	880
Excavator Size (kg)		8000 - 12000	12000 - 25000	16000 - 25000	20000 - 30000
